

Elite 21 traffic wand

Our Elite Series traffic wands are simply the brightest and strongest traffic wands available. Designed for rugged working conditions, where visibility is paramount.

Utilizing Safety Shines proprietary multi Function-flashing sequences along with the brightest 120-degree LED lights available all protectively encased in a super strong waterproof body and thick impact resistant polycarbonate tube, combined with reflective tape on both the main body and the tube tip for additional visibility.

This is truly a professional safety tool!
